& Macedonian National Theatre

Have the honor to invite you to :

## **LocoMotion @4=8 A5 ! Contemporary dance festival**

**26 October 01 November 2008**

With the idea of creating a fresh new concept on the Macedonian cultural scene, the Lokomotiva Centre for New Initiatives in Arts and Culture initiated the LocoMotion festival.

LocoMotion aims to present contemporary dance practices and innovative choreographies by international authors, with an emphasis on authors from the Balkan region and Macedonia.

LocoMotion would like to inform and allow reflection on current practices and discourses in the field of contemporary dance, locally and worldwide.

By realizing the festival we would like to stress the importance of independent, innovative authors and productions by familiarizing the audience with contemporary dance. With the festival we would like to fill the void on our local scene, that is, the space not reserved for grand productions but for presenting new, progressive, innovative forms and independent authors.
